

## Commitment to Legal Use of the Regulated Chemicals

(precursor chemicals or potential explosives by chemosynthesis)

Sam Zhang (The person), for the purpose of research (teaching or research work), need to use the regulated chemical (precursor chemicals or Potential Explosives by Chemosynthesis): Acetone (name of the chemical purchased) in the quantity: 1000mL (quantity purchased).

I promise:

1. to use the purchased regulated chemicals for legal purposes, not to use it for drug manufacturing or explosives chemosynthesis under any circumstances, not to divert it for other purposes than the aforementioned purpose of usage.
2. to use it only in my research group or my lab.
3. to strengthen the administration of the regulated chemicals, implement special management, put it in special storage(which has two separate locks with two persons each holding one key), and keep faithful record of the use.
4. to readily accept supervision and inspection.

If there is any violation of the above commitments resulting in the flow of the regulated chemicals into illegal channels, I am ready to accept any corresponding punishment.
